## K. Reading

Boston is a city in the east of the U.S.A. with a very interesting history. It started with the British nearly 400 years ago, and it is one of the oldest cities in America. The Americans captured the city in 1776 after much fighting between the British and American armies. These days, Boston is much more peaceful. It is sometimes called “the walking city” because it is an easy and attractive city to get around on foot. It has lots of interesting museums, such as the Old South Meeting House in the center of Boston, where America’s independence from Britain started. There are many beautiful, old buildings, and some of these belong to Harvard University, the oldest university in the U.S.A. Did you know there are more than one hundred colleges and universities in the Boston area? If you get tired of the streets and buildings, however, you can watch a baseball game. The local team, the Boston Red Sox, play at Fenway Park, the oldest sports arena in the U.S.A.
